DPD-2993-59

5 May 1959

MEMORANDUM FOR : Chief, Material Branch, DPD
SUBJECT : Contract No. SE-509, Granger Associates,
Spare Parts List

1. Contract No. SE-509 has been issued to Granger for the procurement of two (2) each Repeater Jammers, Mod 504. This requirement was generated by the Chief, Operations, DPD.

2. Item 2 of the contract requires Contractor to furnish a recommended list of spare parts to support these sets. The attached list is in response to this requirement.

3. It is requested that the Chief, Material, DPD review the proposed list of spares in conjunction with Chief, Operations and [redacted] R&D Branch. This list is preliminary only and may be subject to change as the design progresses. However, consideration should be given to an Amended Program Approval since the original approval was limited to the two (2) units at an estimated cost of \$67,000.00.

4. Your attention is also invited to T&K from Lockheed (cite [redacted]). Consideration should also be given to these costs in any Program Approval which may be written. Also, it is anticipated that Granger will have additional costs during the flight testing and these must be programmed for.

REGISTERED - RETURN RECEIPT REQUESTED

Attention:

Contracting Officer

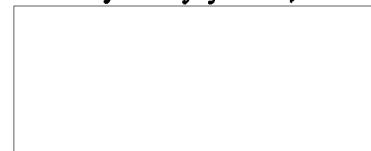

STAT

Gentlemen:

In response to your telephone request of 20 April 1959, we are enclosing a copy of the Tentative Spare Parts List for the Model 504-A, which includes 100% replacement of the traveling wave tubes. A cost analysis is attached, but is submitted with the understanding that when the design of the equipment is more nearly complete, some revisions in the spare parts list may be necessary. For budgetary purposes, however, the cost estimates shown should be adequate.

If any further information is required, please let us know.

Very truly yours,

Project Engineer
